Tomey USA launches its latest innovation in Auto Refractors  
*TOMEY RC-800 Auto Refkeratometer*

Phoenix, Arizona –Tomey USA unveils its latest device, the RC-800 AutoRefractor/Keratometer. Tomey is a recognized leader in the eye care industry and is committed to the continual improvement of diagnostic technology in refraction. The RC-800 was developed to satisfy all expectations. Features like color touch screen with auto shot function and a high speed printer make this device easy in handling as well as efficient and fast in operation. Eye care specialists will benefit, as the device is vastly more affordable and equivalently accurate against other competitive models. Tomey USA will exhibit the RC-800 capabilities and functions at the Vision Expo West 2013 meeting in Las Vegas and the 2013 American Academy of Ophthalmology trade show in New Orleans this fall.

The RC-800 provides ease of operation with its performance accuracy for optometrists and ophthalmologists alike with the incorporation of intuitive touch-screen operation which not only measures refraction and keratometry but also diameter measurement of the cornea and pupil.

For refraction, fogging is applied automatically for each measurement for more accurate results. And keratometry measurements give you enough information for contact lens fitting.

**About Tomey:** For over 40 years, Tomey has emerged as the worldwide leader in the eye care industry. Its mission is simple; deliver the highest quality of devices that are dually cost affordable and easily operable. With its incorporation of modern touch screen technology and comprehensive software, Tomey’s entire line of ophthalmic and optometric diagnostic instruments is designed to be efficient and offer effortless user interaction. With seasoned expertise and success in the corneal topographic market, Tomey has managed to extend beyond topography as it offers a line of Auto Lensmeters, Auto Refractors, Auto Refractor Keratometers, Specular Microscope and Ultrasound systems all utilizing the same initiative for optimum accuracy and operation in patient care and practice. For more information about Tomey products contact TomeyUSA, 2630 E. Mohawk Lane, Suite 136, Phoenix Arizona 85050, or by phone at (888) 449-4045 or visit online at [www.tomeyusa.com](http://www.tomeyusa.com).
